**Five Wavelengths. Zero Excuses.**

FIFA World Cup 2026 · Sports Recovery Campaign · June 14, 2026

## AXRAH — Instagram Carousel

**"FIVE WAVELENGTHS. ZERO EXCUSES."**

### FIFA WORLD CUP 2026 / SPORTS RECOVERY CAMPAIGN

**Date:** June 14, 2026

**Format:** 6-slide Instagram Carousel (1:1 or 4:5)

**Audience:** Sports facility directors, athletic trainers, performance coaches

**Objective:** Drive demo bookings for the AXRAH Pod Ultra

### POST CAPTION

The World Cup isn't won on the pitch.  
The World Cup isn't won on the pitch.  
It's won in the 72 hours between matches.

5 wavelengths. 43,200 LEDs. Clinical-grade recovery.  
While the competition gives you 2, we give you the full spectrum.

## SLIDE 1 — HOOK

### Headline copy:

THE MATCH LASTS  
THE MATCH LASTS  
90 MINUTES.

THE RECOVERY  
DETERMINES  
EVERYTHING AFTER.

### Image prompt for designer/photographer:

Cinematic wide shot, empty World Cup stadium, floodlights blazing, single player silhouette at centre circle. Shot from pitch level, dramatic lens flare. Deep blacks, high contrast. No text treatment needed — image carries the weight. Feels like a Nike campaign opener.

### Design notes:

- Headline in bold white type, bottom-left aligned
- Large whitespace above
- No logo on this slide — save it for the last

## SLIDE 2 — THE PROBLEM

---

### Headline copy:

GROUP STAGE.  
GROUP STAGE.  
3 MATCHES.  
9 DAYS.  
  
YOUR LEGS  
DON'T CARE.

### Image prompt for designer/photographer:

Extreme close-up of footballer's legs, mud-caked boots, grass stains, post-match. Shot at ankle height. Motion blur on one foot. Gritty, raw, editorial. No faces. The exhaustion is in the detail.

### Design notes:

- Dark overlay on image, text in white
- Copy left-aligned, stacked
- Paragraph break between "9 DAYS." and "YOUR LEGS" for pacing

---

## SLIDE 3 — THE 5-WAVELENGTH ADVANTAGE (HERO SLIDE)

---

### Headline copy:

MOST DEVICES.  
MOST DEVICES.  
2 WAVELENGTHS.

AXRAH.  
FIVE.

**Wavelength list (smaller type, beneath headline):**

633nm — Skin & surface repair  
633nm — Skin & surface repair  
660nm — Muscle recovery  
810nm — Deep tissue & joints  
850nm — Cellular energy (ATP)  
940nm — Vascular support

**Image prompt for designer/photographer:**

Pure black background. Five precise horizontal light beams, left to right, each a subtly different shade from warm red to deep near-infrared. Each beam labelled with its wavelength in clean white type. Scientific precision meets premium design. Think Apple keynote slide meets Rolex ad. No photography — pure graphic design.

**Design notes:**

- Headline large and dominant, top half of slide
- Wavelength list clean and minimal, bottom half
- Monospaced or geometric sans-serif for the wavelength data
- No decorative elements — the data is the design

---

## SLIDE 4 — COMPETITOR COMPARISON

---

**Headline copy:**

THE GAP.  
THE GAP.

Comparison table:

|             | AXRAH POD ULTRA             | NOVOTHOR                | THERALIGHT 360I         |
|-------------|-----------------------------|-------------------------|-------------------------|
| Wavelengths | **5**                       | 2                       | 2                       |
| Irradiance  | **129 mW/cm <sup>2</sup> ** | ~100 mW/cm <sup>2</sup> | ~100 mW/cm <sup>2</sup> |
| Price       | **\$24,999**                | est. \$130–150K         | est. \$45–85K           |

Footnote (small print at bottom of slide):

Competitor prices are market estimates based on published data.  
Competitor prices are market estimates based on published data.

Image prompt for designer/photographer:

Clean white or off-white background. The table IS the design. AXRAH column in bold black or red. Competitor columns in light grey. Large whitespace around the data. Feels like a Bloomberg data graphic or an Apple spec page. Zero decoration, no photography.

Design notes:

- "THE GAP." in very large type, top of slide
- Table centred below with generous padding
- AXRAH column visually highlighted (bold + colour)
- Footnote in 8–9pt, bottom of slide

## SLIDE 5 — THE PRODUCT

---

### Headline copy:

43,200 LEDS.  
43,200 LEDS.  
5 WAVELENGTHS.  
6,000 WATTS.

THE AXRAH  
POD ULTRA.

### Image prompt for designer/photographer:

Hero product shot. The Pod Ultra open, glowing deep red from within, centred in a dark, minimal high-end sports recovery room. Polished concrete floor, no clutter. Light spills dramatically from the pod interior — the only light source in the frame. Feels like a luxury car reveal. No people.

### Design notes:

- Specs stacked top-left in white
- Product name large, bottom-left
- Image takes up 60–70% of the frame
- AXRAH logo bottom-right, small

---

## SLIDE 6 — CTA

---

### Headline copy:

YOUR FACILITY.  
YOUR FACILITY.  
WORLD CUP-LEVEL  
RECOVERY.

Image prompt for designer/photographer:

Split frame: left side, a roaring World Cup stadium packed with fans, floodlights and pyro; right side, the Pod Ultra glowing in a dark recovery suite — calm, precise, clinical. Sharp diagonal split down the centre. The contrast says everything. Red and black palette throughout. Cinematic.

Design notes:

- Left half: warm, chaotic stadium energy
- Right half: cool, precise, clinical product
- Headline overlaid on right half in white
- "BOOK A DEMO." and "AXRAH.COM" in larger type at bottom-right
- AXRAH logo centred at the diagonal split

PRODUCTION SPECIFICATIONS

| SPEC           | VALUE                                                                           |
|----------------|---------------------------------------------------------------------------------|
| Slide count    | 6                                                                               |
| Aspect ratio   | 1:1 (1080×1080px) or 4:5 (1080×1350px)                                          |
| Colour palette | Black, AXRAH Red, White                                                         |
| Typography     | Bold geometric sans-serif (Monument Extended, Neue Haas Grotesk, or equivalent) |
| Tone           | Premium, clinical, athletic — Nike meets Rolex                                  |

## NOTES FOR EDITOR

---

- Slide 3 and Slide 4 are the core IP slides — do not cut these if the deck is shortened
- Slide 4 competitor pricing must carry the "market estimates" footnote for legal accuracy
- The World Cup visual language (stadium, boots, pitch) should run through every slide even where product takes centre stage — do not let it drop after slide 2
- All slides should feel like they belong to the same campaign: dark, high-contrast, minimal text, confident
- No stock photo energy — this should feel editorial/campaign, not marketing brochure
